"Project Identification Alphabetical by State"

SPECIAL ISSUE OF THE RA-FC 2-7 FORMS INCLUDING ALL PROJECTS REGISTERED UP TO AND INCLUDING JUNE 15, 1936

EXPLANATION OF STATUS COLUMN

Active (Resettlement type): Projects which have been completed, which are under construction, for which plans have been approved, or for which plans are being prepared.

Active (Land Utilization type): Projects for which land acquisition and/or land development has been approved by the President. (Several projects in this category have been dropped, but this is indicated in the status column.)

Inactive: Projects which are temporarily held in abeyance; projects which have been suspended or withdrawn, temporarily or permanently; projects for which other projects have been substituted; and projects which have been abandoned.

Under consideration: Projects which have received the Administrator's approval in proposal form (but which have not received allotment for preparation of project plans); projects which are being prepared for submission to the Administrator in proposal form; and, in the case of former Subsistence Homesteads, projects on which investigation is being made or a preliminary report is being prepared. Cancelled: Includes old projects combined with others and now carried by different numbers, numbers assigned by error, and numbers cancelled for other reasons.

Transferred to WPA: Includes projects designed to find employment for so-called "White Collar" workers.

Titles are written in CAPITAL LETTERS on active Land Utilization projects, all housing projects approved by the Administrator, and those unapproved housing projects which are now under construction or management.

Brief descriptions are given on all projects (the titles of which appear in capital letters.) The descriptions given are taken from project plans, final budgets, and latest available reports, but are of course subject to modification.

For further explanation of "status" as given on these forms, or any information pertaining to the RA-FC 2-7 forms, communicate with the Project Control Section of the Finance and Control Division. FOR ADDITIONAL COPIES of the RA-FC 2-7 forms, communicate with the Reproduction Section of Business Management Division, Branch 297, Resettlement exchange.

It will be noted that this issue records changes in title for all registered Land Utilization projects. These changes were made in the interest of brevity and clarity and were communicated to the Finance and Control Division by special memorandum of May 29, 1936. It will be recalled that revised titles for Resettlement projects were published in the April 1 issue of the RA-FC 2-7 forms. The Regional Directors were asked by letter from the Administrator to confirm or change these titles. The Directors of Regions 1, 2, 3, 11 and 12 have responded. Inasmuch as two months have elapsed since the Administrator's letter was written, it is necessary to regard the titles as published in the April 1 issue, and as republished or changed in this issue, as official. Any future changes will be recorded on supplementary issues of the RA-FC 2-7 forms.

Handwritten text in a cursive script, likely a letter or document, written on aged, yellowed paper. The text is faint and difficult to decipher due to the quality of the scan and the age of the document. The handwriting is slanted and appears to be from the 18th or 19th century. The text is organized into several lines, with some lines being more prominent than others. The overall appearance is that of a historical document or a personal letter.

Form RA-FC 2-7, Project Identification Alphabetical by State

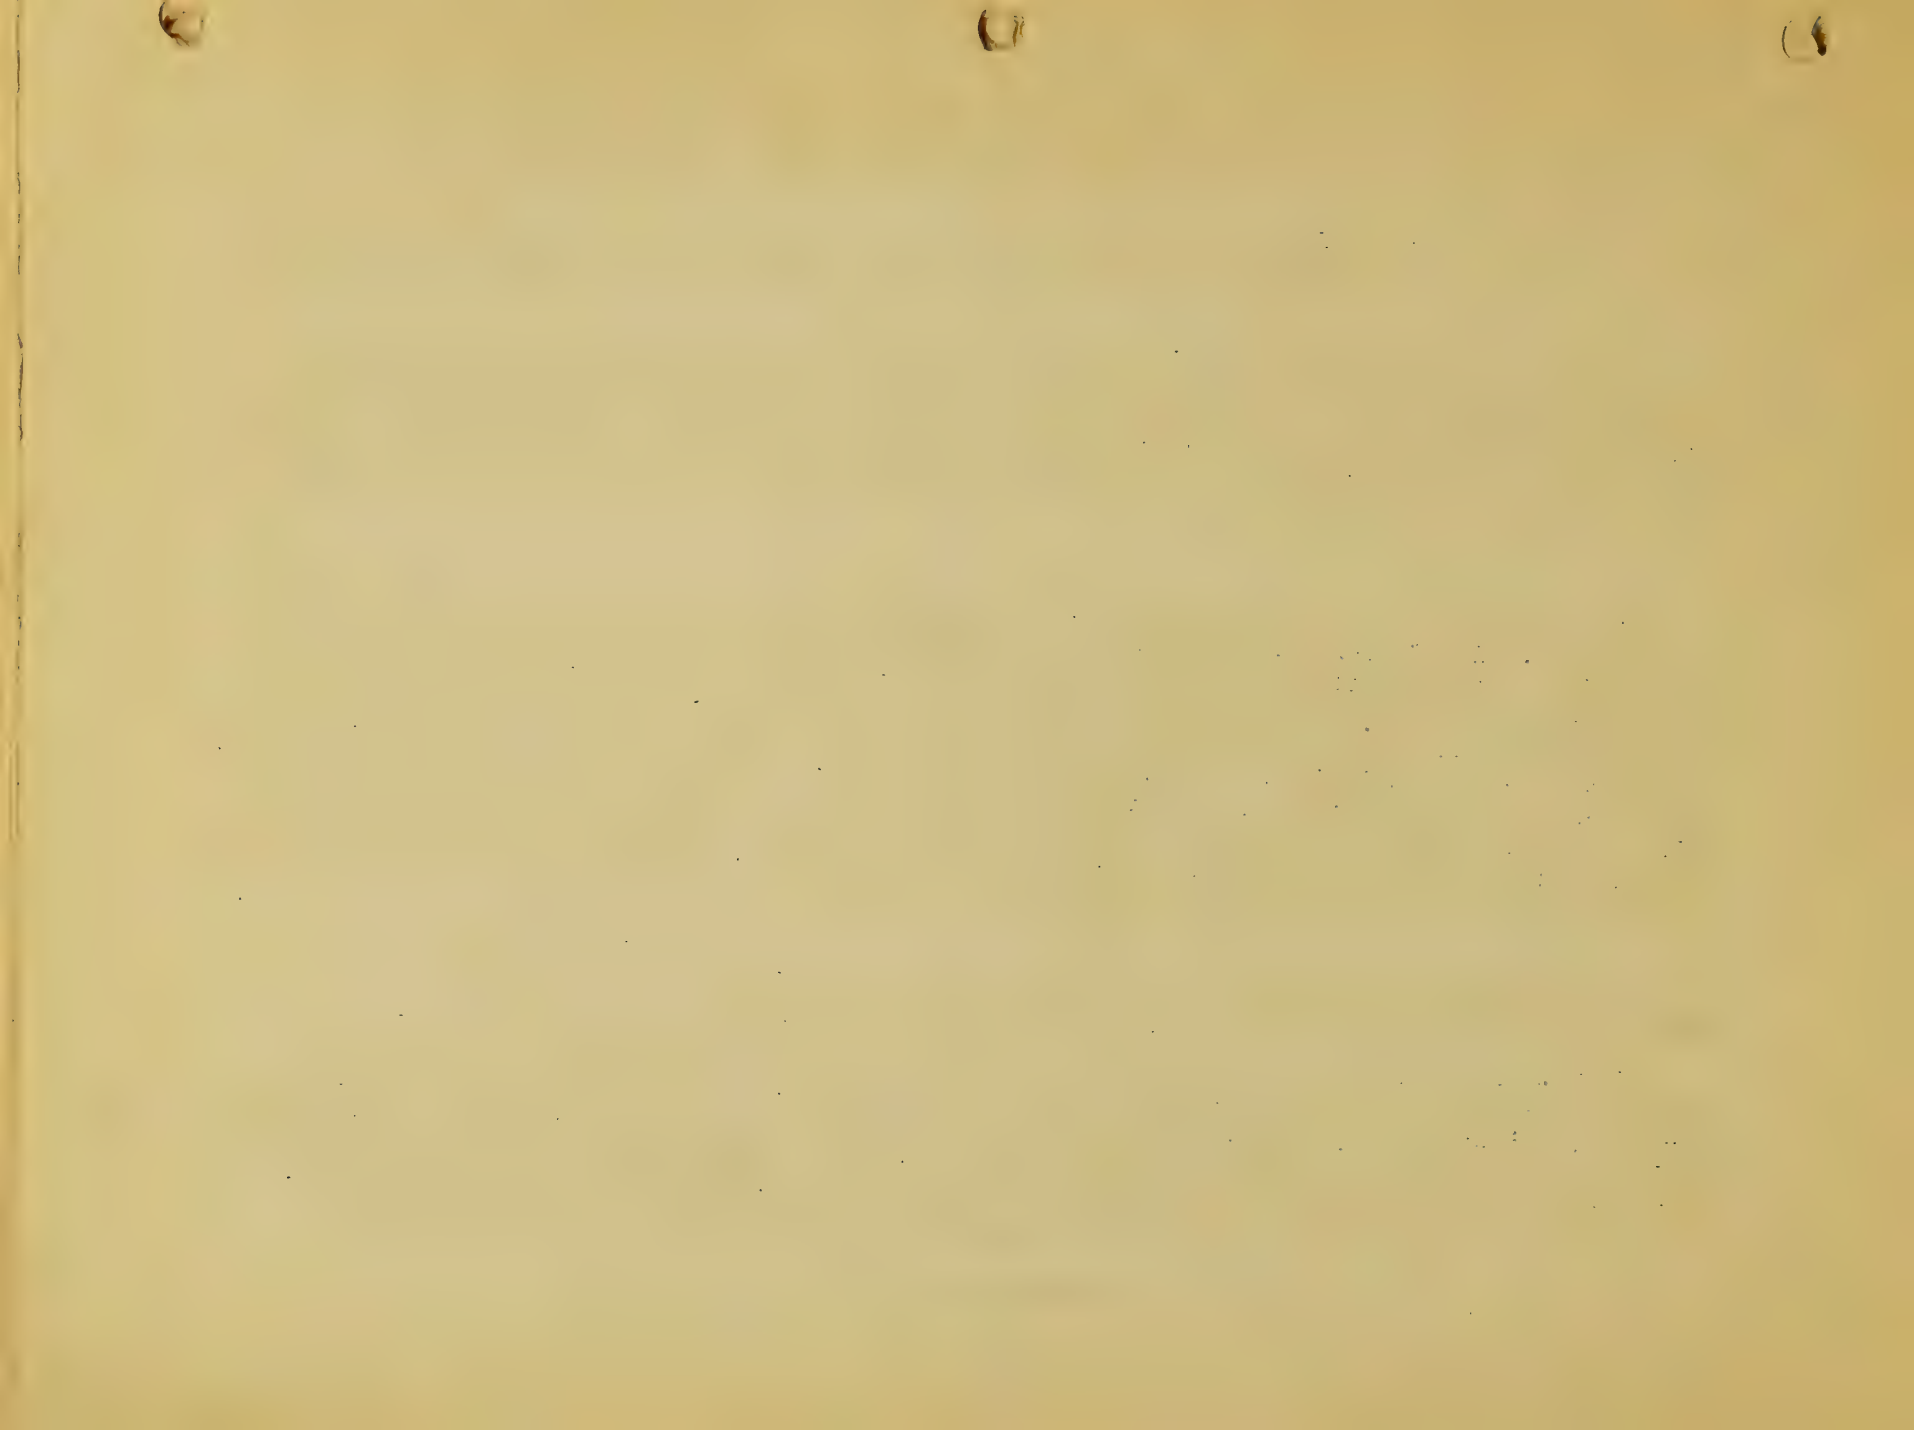

Herewith is issued Notice No. 2, State of New Mexico, and revisions of certain Notices (or pages) in the special issue of Form RA-FC 2-7 dated June 15, 1936. These revisions are made to cover the elimination of certain so-called project combinations which it is not strictly accurate to call combinations. Appropriate footnotes have been included to call attention to the projects which are affected.

All of these so-called combinations were consolidations of two projects, one of which is inactive and has received no allotments. For example, RR-NM 19 was "combined" with RR-NM 20, Hope Farms. The former has received an \$8,000 allotment, \$3,344.25 of which was unencumbered as of July 15; the latter has received no allotment. Strictly speaking, what has happened is that RR-NM 19 is enlarged and RR-NM 20 is inactive or abandoned. The same is true of the others. Therefore, it was felt that it would be difficult, as well as unnecessary, to try to justify these so-called combinations to the Comptroller General. Eight project combinations still remain in force subject to approval by the Comptroller General. These, it is felt, are justified. They are combinations in which all of the combined projects have received allotments (all or a portion of the allotments for each project being encumbered).

There is also issued herewith a special sheet listing projects, the locations of which have been changed since the June 15 issue of Form RA-FC 2-7.

Attention is called to a change in the symbol of Ironwood Homesteads from SR-MI 28 to RR-MI 28. This change was made because of possible objections by the General Accounting Office to requisitioning of funds for land purchase from the \$91,000,000 allocation (now \$84,392,400) under the "SR" symbol, inasmuch as "SR" denotes a suburban type project. Although Ironwood Homesteads is essentially a suburban type project, yet it is financed from the \$91,000,000 allocation which was intended, apart from loans and grants, for rural community projects.

(Issued August 28, 1936)

LIST OF PROJECTS WHICH HAVE BEEN CHANGED IN POINT OF  
COUNTY LOCATIONS SINCE THE JUNE 15 ISSUE OF FORM RA-FC 2-7.

\* \* \* \* \*

Since the issuance of the June 15, 1936 issue of Form RA-FC 2-7, certain counties have been added to project purchase or development areas and certain counties have been dropped. Herewith are given all such changes not previously indicated. It should be remembered that in some cases the project areas cannot as yet be determined with absolute finality. The chief reason for this is that it is sometimes impossible to secure land in certain counties originally included in project areas, or else land costs have risen so high that it seems advisable to shift to another locality. However, Form RA-FC 2-7 is kept as up-to-date as possible, showing (in so far as this information is available in Washington) all counties in the various project purchase and development areas, both those in which options have been taken, received, or accepted in Washington, and in which it is contemplated to option land.

Each holder of Form RA-FC 2-7 should attach this list to his set for reference. Where space permits, the additional counties given here should be written or typed in on the individual sheets.

Form RA-FC 2-7, Project Identification Alphabetical by State  
(THIS RESCINDS COVER SHEET OF AUGUST 28, 1936)

Herewith is issued Notice No. 2, State of New Mexico, and revisions of certain Notices (or pages) in the special issue of Form RA-FC 2-7 dated June 15, 1936. These revisions are made to cover the elimination of certain so-called project combinations which it is not strictly accurate to call combinations. Appropriate footnotes have been included to call attention to the projects which are affected.

All of these so-called combinations were consolidations of two projects, one of which is inactive and has received no allotments. For example, RR-NM 19 was "combined" with RR-NM 20, Hope Farms. The former has received an \$8,000 allotment, \$3,344.25 of which was unencumbered as of July 15; the latter has received no allotment. Strictly speaking, what has happened is that RR-NM 19 is enlarged and RR-NM 20 is inactive or abandoned. The same is true of the others. Therefore, it was felt that it would be difficult, as well as unnecessary, to try to justify these so-called combinations to the Comptroller General. Eight project combinations still remain in force subject to approval by the Comptroller General. These, it is felt, are justified. They are combinations in which all of the combined projects have received allotments (all or a portion of the allotments for each project being encumbered).

There is also issued herewith a special sheet listing projects, the locations of which have been changed since the June 15 issue of Form RA-FC 2-7.

Attention is called to a change in the symbol of Ironwood Homesteads from SR-MI 28 to RR-MI 28. The "SR" symbol was given in the first instance by typographical error.

Herewith is issued a revision of Notice No. 1A (A, B, & C) of the State of Tennessee. The purpose of this revision is to give notification of a change in the titles of LA-TN 7 and LD-TN 7 from HARDEMAN-CHESTER and HARDEMAN-CHESTER DEVELOPMENT, respectively, to CHICKASAW FOREST and CHICKASAW FOREST DEVELOPMENT, respectively. This change was made at the request of the Regional Director. His request was prompted by a petition of residents of the locality asking that the project be called "Chickasaw Forest."

SPECIAL NOTICE

By special request of the Rural Resettlement Division, the word "farm" has been added to the title of the ten "farm tenant security" projects. As a consequence, titles of these projects should be changed as follows:

RR-NC 23 - North Carolina Farm Tenant Security	RR-MS 21 - Mississippi Farm Tenant Security
RR-TN 27 - Tennessee Farm Tenant Security	RR-AK 19 - Arkansas Farm Tenant Security
RR-AL 27 - Alabama Farm Tenant Security	RR-LA 14 - Louisiana Farm Tenant Security
RR-GA 26 - Georgia Farm Tenant Security	RR-OK 23 - Oklahoma Farm Tenant Security
RR-SC 20 - South Carolina Farm Tenant Security	RR-TX 22 - Texas Farm Tenant Security

Since the distribution of the June 15th issue of Form RA-FC 2-7, the area planned for RR-SC 21, "Coastal Cooperative Farms," has been changed and now includes: Beaufort, Colleton, Hampton and Allendale Counties, and St. Helena's Island. Two additional changes should be made in the June 15th issue: The title of LI-MT 9 is "BLACKFEET." The O. P. number of RR-CO 10 is 56-38-04.

It is suggested that the above changes be made by all holders of Form RA-FC 2-7 on their respective copies.

Form RA-FC 2-7, Project Identification Alphabetical by State

The attached sheets are revisions of Notices (or pages) in the special issue of Form RA-FC 2-7 dated June 15, 1936. They are being issued to cover certain changes in titles made at the request of the Regional Directors in Regions IV & VIII. The changed titles are indicated by "#" to the left of the project number. THE OLD NOTICES SHOULD BE DESTROYED AND THE NEW ONES INSERTED IN THE BINDER.

The project titles as they now appear on Form RA-FC 2-7, including the changes covered by this revision, are now regarded as permanent. There will be no changes in the future unless authority is given by the Administrator's Office.

Holders of Form RA-FC 2-7 are hereby advised that the number of "Pine Camp," published as LA-NY 7 in the June 15 issue, has been changed to LO-NY 7. LO-NY 7 is listed on Page 57, Notice No. 1B, State of New York. It is suggested that this change be made in pencil, ink, or typewriter by all holders of Form RA-FC 2-7 on their respective copies. Other minor changes that should be made are as follows:

RF-CF 16 ----- Counties: Sonoma, Kern, Stanislaus, Santa Clara, Butte, Tulare, Riverside, and Imperial.  
LA-GA 4 ----- Counties: Greene, Jones, Baldwin, Wilkinson, Hancock, and Twiggs.  
LA-LA 3 ----- Counties: Jefferson-Davis and Cameron  
SR-NJ 3 ----- Change spelling of Bound Brook to Boundbrook.  
LA-NM 2 ----- Location: Taos and Rio Arriba Counties.  
LI-NM 12 ----- Title: TEWA BASIN LAND.  
RR-OK 20 ----- Change spelling of Leflore County to Le Flore.

Form RA-FC 2-7 Covering Projects Registered Between October 25 and November 1, 1936 and  
Revising Certain Project Data Previously Issued

\*\*\*\*\*

The attached sheets are supplementary to the special issue of Form RA-FC 2-7 dated June 15, 1936 and published in the yellow cardboard binder. These sheets should be placed in the binder.

Also attached are special sheets listing minor changes in project data entitled: "Minor Changes In Project Data Which Should Be Made By All Holders Of Form RA-FC 2-7 On Their Respective Copies."

In the case of active resettlement projects, particularly those of the infiltration and farm tenant security type, data as to final county locations are in many cases still indefinite. Land is still being optioned and for various reasons it is from time to time necessary to shift certain project areas. In so far as possible changes in county locations will be kept up to date on Form RA-FC 2-7.

Form RA-FC 2-7, "Project Identification Alphabetical by State"

This is a supplementary issue giving notification of projects registered between January 20, 1937 and February 10, 1937 and revising Notice No. 1B (A, B, and C), State of Alabama.

Also attached is a special sheet indicating minor changes in project data. These changes should be made in pencil or by typewriter by all holders of Form RA-FC 2-7 on their respective copies.

\*\*\*\*\*

Limitations of personnel and the enormous amount of stencil cutting required have prevented the publication of a complete revision of Form RA-FC 2-7 to include various changes in project data since June 15, 1936, the date of the last general revision. It has been necessary to follow a policy of issuing supplements from time to time and of revising individual sheets to show important changes. Minor changes have in many cases been shown on special cover sheets accompanied by the suggestion that holders of Form RA-FC 2-7 indicate these changes in pencil or typewriter on their respective copies.

Inasmuch as a general revision has not been made, holders of Form RA-FC 2-7 are advised that the status column and the brief project descriptions given should not be regarded as up to date.
